

### **Actions to Help Waders**

Agreement, in principle, has been sought to fund a suite of actions with input from a range of stakeholders including British Trust for Ornithology, Game & Wildlife Conservation Trust, James Hutton Institute, Royal Society for Protection of Birds, Scottish Agricultural College, Scottish Land & Estates, Scottish Natural Heritage, Scotland's Rural College and a broad cross-section of landowners and managers. A detailed implementation plan is being developed to deliver on these actions over the next 10 months. More information and details on the actions can be found here <http://workingforwaders.blogspot.co.uk/>
