

# INTRODUCTORY GUIDANCE: COMPLETING THE LEVEL 2 ACCREDITATION APPLICATION

Please bear in mind the following points in completing this application form:

- There are five modules to this application. All applicants must complete Module A. Applicants need only complete Modules B to E where relevant.
- WES seek a mixture of factual and more descriptive information about the landholding and how it is managed. Every attempt should be made to provide complete information. The more detail provided either in the application form, or submitted in support of the application form, the more streamlined and efficient the assessment (including site visit) will be.
- There is no single model or ideal response to the questions. Each application will be assessed in its own context. WES recognises that there is no one-size-fits-all model.
- The application form has been designed to cover a wide range of landholding circumstances and activities. Some questions will not apply to every situation – please indicate ‘Not Applicable’ or ‘N/A’ where this is the case. Such responses will not affect the outcome of the assessment.
- Equally, although specific response prompts and spaces have been provided for many questions, there may be cases where you may wish to provide us with more information. We welcome any additional background you wish to provide to us.
- For tables into which more than one entry is required, a ‘+’, which appears at the right-hand side of the row, can be clicked in order to propagate a new row.

With the exception of personal information, it may also be used and published as part of wider data sets generated by WES to demonstrate the role of landholdings in contributing to the Scottish rural economy, local communities, biodiversity and national outcomes. Such reporting will include only generic regional area identification.

No personal information will be disclosed to third parties with the exception of independent assessors Acura.
