
Fibre 1 Ltd

Moray-based telecoms company Fibre 1 provides organisations UK-wide with Fibre, Leased Lines, FTTC, FTTP, Hosted Telephony, Lines & Calls, 4G and Mobiles. We guarantee reliable connections regardless of location (no matter how remote!) at the best possible price with excellent customer service as standard.

Our Switch and Save service is hassle free and a quick and effective way to highlight savings – and the best part is we take care of all the hard work for you. We do not operate a call centre; our excellent customer service team are based locally in Moray, which removes the headache of dealing with larger carriers and takes away the requirement for constantly waiting for updates. You'll deal with us directly, whatever your question.

We are offering a 15% discount off standard RRP to members of Scottish Land & Estates, so get in touch today for a no-obligation review on your telecoms and connectivity requirements.
